BİM Birleşik Mağazalar Anonim Şirketi and its Subsidiary

Notes to consolidated financial statements for the nine month period ended September 30, 2011 (Currency – Thousands of Turkish Lira (TL) unless otherwise indicated. All other currencies are expressed in full amounts unless otherwise indicated)

1. Organization and nature of operations of the Company

BİM Birleşik Mağazalar Anonim Şirketi (BİM - the Company) was established on May 31, 1995 and commenced its operations in September 1995. The registered address of the Company is Ebubekir Cad. No: 73 Sancaktepe, İstanbul.

The Company is engaged in operating retail stores through its retail shops throughout Turkey, which sell an assortment of approximately 600 items, including a number of private labels. The Company is publicly traded in Istanbul Stock Exchange (ISE) since July 2005.

The Company established a new company named Bim Stores SARL as of May 19, 2008 with 100% ownership in Morocco which is engaged in hard discount retail sector and started to operate at April 11, 2009. BIM Stores SARL financial statements are consolidated by using the full consolidation method as of September 30, 2011.

Hereinafter, the Company and its consolidated subsidiary together will be referred to as "the Group".

The main and ultimate controlling party of the Group is Mustafa Latif Topbaş. The consolidated financial statements were authorized for issue on November 2, 2011 by the Board of Directors of the Company. Although there is no such intention, the General Assembly and certain regulatory bodies have the power to amend the financial statements after issue.

For the nine -month period ended September 30, 2011 and 2010, the average number of workers is shown below:

	January 1- September 30,2011	January 1 - September 30, 2010
Office personnel	1.257	1.115
Warehouse personnel	2.040	1.918
Store personnel	15.109	13.338
Total	18.406	16.371

2. Basis of preparation of financial statements

Basis of preparation

The Company maintains its books of account and prepares its statutory financial statements in Turkish Lira (TL) in accordance with regulations on accounting and reporting framework and the Uniform Chart of Accounts issued by the Ministry of Finance. The legal statutory financial statements of the subsidiary established outside of Turkey are prepared in accordance with law and tax legislation in the country it is domiciled.

BİM Birleşik Mağazalar Anonim Şirketi and its Subsidiary

Notes to consolidated financial statements for the nine-month period ended September 30, 2011 (continued) (Currency – Thousands of Turkish Lira (TL) unless otherwise indicated. All other currencies are expressed in full amounts unless otherwise indicated)

2. Basis of preparation of financial statements (continued)

The financial statements of the Company have been prepared in accordance with accounting and reporting standards (the CMB Accounting Standards) as prescribed by the Turkish Capital Market Board (the CMB) until December 31, 2007. The CMB has issued communiqué no. XI-25 "Communiqué on Accounting Standards in Capital Markets" which sets out a comprehensive set of accounting principles. In this Communiqué, the CMB stated that alternatively application of accounting standards prescribed by the International Accounting Standards Board (IASB) and International Accounting Standards Committee (IASC) will also be considered to be compliant with the CMB Accounting Standards. Beginning from January 1, 2008, the financial statements are prepared in accordance with International Accounting / Financial Reporting Standards (IAS/IFRS) as prescribed in the CMB communiqué published in the official gazette dated April 9, 2008 and after became effective No:XI-29 "Communiqué on Financial Reporting Standards in Capital Markets" (Communiqué) and from the statutory financial statements with adjustments and reclassifications for the purpose of fair presentation. Such adjustments mainly comprise accounting for subsidiary on a consolidation basis. provision for impairment of stock, deferred taxation, employee termination benefits, fair value accounting of land and buildings, provision for litigations against the Group and rediscount of trade receivables and payables.

The consolidated financial statements have been prepared under the historical cost convention, except for land and building which are carried at fair value.

Changes in accounting policies

The accounting policies adopted in the preparation of the Group's interim consolidated financial statements are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31 December 2010, except for the adoption of new standards and interpretations noted below. The effects of these standards and interpretations on the Group's financial position and performance have been disclosed in the related paragraphs.

The new standards, amendments and interpretations which are effective as at January 1, 2011 are as follows:

IFRIC 19 Extinguishing Financial Liabilities with Equity Instruments

This interpretation addresses the accounting treatment when there is a renegotiation between the entity and the creditor regarding the terms of a financial liability and the creditor agrees to accept the entity's equity instruments to settle the financial liability fully or partially. IFRIC 19 clarifies such equity instruments are "consideration paid" in accordance with paragraph 41 of IAS 39. As a result, the financial liability is derecognized and the equity instruments issued are treated as consideration paid to extinguish that financial liability.

IFRIC 14 Prepayments of a Minimum Funding Requirement (Amended)

The purpose of this amendment was to permit entities to recognize as an asset some voluntary prepayments for minimum funding contributions.

BİM Birleşik Mağazalar Anonim Şirketi and its Subsidiary

Notes to consolidated financial statements for the nine-month period ended September 30, 2011 (continued) (Currency – Thousands of Turkish Lira (TL) unless otherwise indicated. All other currencies are expressed in full amounts unless otherwise indicated)

2. Basis of preparation of financial statements (continued)

IAS 32 Classifications on Rights Issues (Amended)

This amendment relates to the rights issues offered for a fixed amount of foreign currency which were treated as derivative liabilities by the existing standard. The amendment states that if certain criteria are met, these should be classified as equity regardless of the currency in which the exercise price is denominated.

IAS 24 Related Party Disclosures (Amended)

Amended standard clarified the definition of a related party to simplify the identification of such relationships and to eliminate inconsistencies in its application. The revised standard introduces a partial exemption of disclosure requirements for government-related entities.

IFRS 1 Limited Exemption from Comparative IFRS 7 Disclosures for the first time adopters (Amented)

This amendment exempts first-time adopters of IFRSs from providing the additional disclosures introduced by IFRS 7 on 5 March 2009.

In May 2010 the IASB issued its third omnibus of amendments to its standards, primarily with a view to removing inconsistencies and clarifying wording. There are separate transitional provisions for each standard. The amendments that are effective as at January 1, 2011 and July 1, 2011 are as follows:

IFRS 1 First-time adoption

This improvement clarifies the treatment of accounting policy changes in the year of adoption after publishing an interim financial report in accordance with IAS 34 Interim Financial Reporting, allows first-time adopters to use an event-driven fair value as deemed cost and expands the scope of 'deemed cost' for property, plant and equipment or intangible assets to include items used subject to rate regulated activities.

IFRS 3 Business Combinations

This improvement clarifies that the amendments to IFRS 7 Financial Instruments: Disclosures, IAS 32 Financial Instruments: Presentation and IAS 39 Financial Instruments: Recognition and Measurement, that eliminate the exemption for contingent consideration, do not apply to contingent consideration that arose from business combinations whose acquisition dates precede the application of IFRS 3 (as revised in 2008).

Moreover, this improvement limits the scope of the measurement choices (fair value or at the present ownership instruments' proportionate share of the acquiree's identifiable net assets) only to the components of non-controlling interest that are present ownership interests that entitle their holders to a proportionate share of the entity's net assets.

Finally, it requires an entity (in a business combination) to account for the replacement of the acquiree's share-based payment transactions (whether obliged or voluntarily), i.e., split between consideration and post combination expenses.

BİM Birleşik Mağazalar Anonim Şirketi and its Subsidiary

Notes to consolidated financial statements for the nine-month period ended September 30, 2011 (continued) (Currency – Thousands of Turkish Lira (TL) unless otherwise indicated. All other currencies are expressed in full amounts unless otherwise indicated)

2. Basis of preparation of financial statements (continued)

IFRS 7 Financial Instruments: Disclosures

This improvement gives clarifications of disclosures required by IFRS 7 and emphasizes the interaction between quantitative and qualitative disclosures and the nature and extent of risks associated with financial instruments.

IFRS 7 Financial Instruments: Disclosures as part of its comprehensive review of off balance sheet activities (Amended)

The amendment is effective for annual periods beginning on or after July 1, 2011. The purpose of this amendment is to allow users of financial statements to improve their understanding of transfer transactions of financial assets (e.g. securitizations), including understanding the possible effects of any risks that may remain with the entity which transferred the assets. The amendment also requires additional disclosures if a disproportionate amount of transfer transactions are undertaken around the end of a reporting period. This amendment has not yet been endorsed by the EU. This amendment does not have an impact on the financial position or performance of the Group.

IAS 1 Presentation of Financial Statements

This amendment clarifies that an entity will present an analysis of other comprehensive income for each component of equity, either in the statement of changes in equity or in the notes to the financial statements.

IAS 27 Consolidated and Separate Financial Statements

This improvement clarifies that the consequential amendments from IAS 27 made to IAS 21 "The Effect of Changes in Foreign Exchange Rates", IAS "28 Investments in Associates" and IAS 31 "Interests in Joint Ventures".

IAS 34 Interim Financial Reporting

This improvement provides guidance to illustrate how to apply disclosure principles in IAS 34 and add disclosure requirements.

IFRIC 13 Customer Loyalty Programmes

This improvement clarifies that when the fair value of award credits is measured based on the value of the awards for which they could be redeemed, the amount of discounts or incentives otherwise granted to customers not participating in the award credit scheme, is to be taken into account.

These new standards, amendments and interpretations did not have a significant effect on the financial position or the performance of the Group.

Standards issued but not yet effective and not early adopted

Up to the date of approval of the interim consolidated financial statements, certain new standards, interpretations and amendments to existing standards have been published but are not yet effective for the current reporting period and which the Group has not early adopted, as follows. The Group will make the necessary changes if not indicated otherwise, which will be affecting the interim consolidated financial statements and disclosures, after the new standards and interpretations become in effect.

BİM Birleşik Mağazalar Anonim Şirketi and its Subsidiary

Notes to consolidated financial statements for the nine-month period ended September 30, 2011 (continued) (Currency – Thousands of Turkish Lira (TL) unless otherwise indicated. All other currencies are expressed in full amounts unless otherwise indicated)

2. Basis of preparation of financial statements (continued)

IFRS 9 Financial Instruments - Phase 1 financial instruments, classification and measurement

The new standard is effective for annual periods beginning on or after January 1, 2013. Phase 1 of this new IFRS introduces new requirements for classifying and measuring financial assets. The amendments made to IFRS 9 in October 2010 affect the measurement of fair value option (FVO) liabilities and requires that the change in fair value of a FVO financial liability attributable to credit risk is presented under other comprehensive income. Early adoption is permitted. This standard has not yet been endorsed by the EU. The Group is in the process of assessing the impact of the new standard on the financial position or performance of the Group.

IAS 12 Deferred Taxes: Recovery of Underlying Assets (Amendment)

The amendments are mandatory for annual periods beginning on or after January 1, 2012, but earlier application is permitted. IAS 12 has been updated to include i) a rebuttable presumption that deferred tax on investment property measured using the fair value model in IAS 40 should be determined on the basis that its carrying amount will be recovered through sale and ii) a requirement that deferred tax on non-depreciable assets, measured using the revaluation model in IAS 16, should always be measured on a sale basis. This standard has not yet been endorsed by the EU. The Group does not expect that this amendment will have an impact on the financial position or performance of the Group.

IFRS 10 Consolidated Financial Statements

Standard is effective for annual periods beginning on or after 1 January 2013 and are applied on a modified retrospective basis. This new Standard may be adopted early, but IFRS 11 Joint Arrangements and IFRS 12 Disclosure of Interests in Other Entities should be also adopted early.

IFRS 10 replaces the portion of IAS 27 Consolidated and Separate Financial Statements that addresses the accounting for consolidated financial statements. A new definition of control is introduced, which is used to determine which entities are consolidated. This is a principle based standard and require preparers of financial statements to exercise significant judgment. This standard has not yet been endorsed by the EU. The Group is in the process of assessing the impact of the new standard on the financial position or performance of the Group.

IFRS 11 Joint Arrangements

Standard is effective for annual periods beginning on or after January 1, 2013 and are applied on a modified retrospective basis. This new Standard may be adopted early, but IFRS 10 Consolidated Financial Statements and IFRS 12 Disclosure of Interests in Other Entities should be also adopted early.

The standard describes the accounting for joint ventures and joint operations with joint control. Among other changes introduced, under the new standard, proportionate consolidation is not permitted for joint ventures. This standard has not yet been endorsed by the EU. The Group does not expect that this standard will have a significant impact on the financial position or performance of the Group.

IFRS 12 Disclosure of Interests in Other Entities

Standard is effective for annual periods beginning on or after January 1, 2013 and are applied on a modified retrospective basis. This new Standard may be adopted early, but IFRS 10 Consolidated Financial Statements and IFRS 11 Joint Arrangements should be also adopted early.

BİM Birleşik Mağazalar Anonim Şirketi and its Subsidiary

Notes to consolidated financial statements for the nine-month period ended September 30, 2011 (continued) (Currency – Thousands of Turkish Lira (TL) unless otherwise indicated. All other currencies are expressed in full amounts unless otherwise indicated)

2. Basis of preparation of financial statements (continued)

IFRS 12 includes all of the disclosures that were previously in IAS 27 Consolidated and Separate Financial Statements related to consolidated financial statements, as well as all of the disclosures that were previously included in IAS 31 Interests in Joint Ventures and IAS 28 Investment in Associates. These disclosures relate to an entity's interests in subsidiaries, joint arrangements, associates and structured entities. This standard has not yet been endorsed by the EU. Under the new standard it is expected that more comprehensive disclosures will be given for interests in other entities.

IFRS 13 Fair Value Measurement

The new Standard provides guidance on how to measure fair value under IFRS but does not change when an entity is required to use fair value. It is a single source of guidance under IFRS for all fair value measurements. The new standard also brings new disclosure requirements for fair value measurements. IFRS 13 is effective for annual periods beginning on or after January 1, 2013 and will be adopted prospectively. Early application is permitted. The new disclosures are only required for periods beginning after IFRS 13 is adopted — that is, comparative disclosures for prior periods are not required. This standard has not yet been endorsed by the EU. The Group is in the process of assessing the impact of the new standard on the financial position or performance of the Group.

IAS 27 Separate Financial Statements (Amended)

As a consequential amendment to IFRS 10, the IASB also amended IAS 27, which is now limited to accounting for subsidiaries, jointly controlled entities, and associates in separate financial statements. Transitional requirement of this amendment is similar to IFRS 10. This standard has not yet been endorsed by the EU. The Group does not expect that this standard will have any impact on the financial position or performance of the Group.

IAS 28 Investments in Associates and Joint Ventures (Amended)

As a consequential amendment to IFRS 11, the IASB also amended IAS 28, which has been renamed IAS 28 Investments in Associates and Joint Ventures, to describe the application of the equity method to investments in joint ventures in addition to associates. Transitional requirement of this amendment is similar to IFRS 11. This standard has not yet been endorsed by the EU. The Group does not expect that this standard will have any impact on the financial position or performance of the Group.

IAS 19 Employee Benefits (Amended)

Amended standard is effective for annual periods beginning on or after January 1, 2013, with earlier application permitted. With very few exceptions retrospective application is required. Numerous changes or clarifications are made under the amended standard. Among there numerous amendments, the most important changes are removing the corridor mechanism and making the distinction between short-term and other long-term employee benefits based on expected timing of settlement rather than employee entitlement. This standard has not yet been endorsed by the EU. The Group is in the process of assessing the impact of the new standard on the financial position or performance of the Group.

2. Basis of preparation of financial statements (continued)

IAS 1 Presentation of Financial Statements (Amended)

The amendments are effective for annual periods beginning on or after July 1, 2012. The amendments to IAS 1 change only the grouping of items presented in other comprehensive income. Items that could be reclassified (or 'recycled') to profit or loss at a future point in time would be presented separately from items which will never be reclassified. This standard has not yet been endorsed by the EU. The Group does not expect that this standard will have a significant impact on the financial position or performance of the Group.

Functional and presentation currency

The functional and presentation currency of the Company is Turkish Lira (TL).

The functional currency of the Company's subsidiary, BIM Stores SARL, is Maroc Dirham (MAD). In the consolidated financial statements, MAD amounts presented in the balance sheet are translated into Turkish Lira at the official TL exchange rate for purchases of MAD announced by the Central Bank of the Republic of Turkey at the balance sheet date, TL 1,00 (full) = MAD 4,457 (December 31, 2010 - 1 TL = 5,429 MAD), MAD amounts in the statement of comprehensive income have been translated into TL, at the average TL exchange rate for purchases of MAD, is TL 1,00 (full) = TL MAD (December 31, 2010 - 1 TL = 5,602 MAD). Differences that occur by the usage of closing and average exchange rates are followed under currency translation differences classified under equity.

Basis of consolidation

The consolidated financial statements comprise the financial statements of the parent company and its subsidiary prepared as for the nine -month ended September 30, 2011. Subsidiary is consolidated from the date on which control is transferred to the Group. The consolidated financial statements cover BIM and the subsidiary with 100% control.

Subsidiary is consolidated by using the full consolidation method; therefore, the carrying value of subsidiary is eliminated against the related shareholders' equity.

Intercompany balances and transactions between BİM and its subsidiary, including intercompany unrealized profits and losses are eliminated. Consolidated financial statements are prepared using uniform accounting policies for similar transactions and other events in similar circumstances.

Offsetting

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liabilities simultaneously.

Accounting estimates

The preparation of financial statements in accordance with the CMB Accounting Standards require the Group management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting year. Actual results could differ from those estimates. Those estimates are reviewed periodically, and as adjustments become necessary, they are reported in earnings in the periods in which they become known.

BİM Birleşik Mağazalar Anonim Şirketi and its Subsidiary

Notes to consolidated financial statements for the nine-month period ended September 30, 2011 (continued) (Currency – Thousands of Turkish Lira (TL) unless otherwise indicated. All other currencies are expressed in full amounts unless otherwise indicated)

2. Basis of preparation of financial statements (continued)

Significant estimates used in the preparation of these financial statements and the significant judgments with the most significant effect on amounts recognized in the financial statements are mainly related with the accounting of employee termination benefits, provision for inventories, revaluation of land and buildings, assessment of economic useful lives of property, plant and equipment and intangibles, provision for litigation against the Group and provision for income taxes.

Summary of significant accounting policies

Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits associated with the transaction will flow to the enterprise and the amount of the revenue can be reliably measured. Revenue is recognized net of discounts and Value Added Tax (VAT) when delivery has taken place and transfer of risks and rewards has been completed.

Profit shares income from participations banks are recognized according to the accrual basis.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, cash at banks, cash in transit and time deposits generally having original maturities of three months or less.

Trade receivables

Trade receivables, which generally have an average of 10 day term (December 31, 2010 – 10 days) as of balance sheet date, are carried at amortized cost less an allowance for any uncollectible amounts. Estimate is made for the doubtful provision when the collection of the trace receivable is not probable.

Inventories

Inventories are valued at the lower of cost and net realizable value. Costs comprise purchase cost and, where applicable and those overheads that have been incurred in bringing the inventories to their present location and condition. Cost is determined by the first in first out method.

Net realizable value is the estimated selling price less estimated costs necessary to realize sale.

Property and equipment

All property and equipment is initially recorded at cost. Land and building are subsequently measured at revalued amounts which are the fair value at the date of the revaluation, based on valuations by external independent values, less subsequent depreciation for building. All other property and equipment is stated at cost less accumulated depreciation and accumulated impairment loss. When assets are sold or retired, their cost and accumulated depreciation are eliminated from the related accounts and any gain or loss resulting from their disposal is included in the statement of income. On disposal of revalued assets, amounts in revaluation reserves relating to that asset are transferred to retained earnings.

BİM Birleşik Mağazalar Anonim Şirketi and its Subsidiary

Notes to consolidated financial statements for the nine-month period ended September 30, 2011 (continued) (Currency – Thousands of Turkish Lira (TL) unless otherwise indicated. All other currencies are expressed in full amounts unless otherwise indicated)

2. Basis of preparation of financial statements (continued)

The initial cost of property and equipment comprises its purchase price, including import duties and non-refundable purchase taxes and any directly attributable costs of bringing the asset ready for use. Expenditures incurred after the fixed assets have been put into operation, such as repairs and maintenance, are normally charged to income in the year the costs are incurred. If the asset recognition criteria are met, the expenditures are capitalized as an additional cost of property and equipment.

Increases in the carrying amount arising on revaluation of property are initially credited to revaluation reserve in shareholders' equity net of the related deferred tax.

Depreciation is provided on cost or revalued amount of property and equipment on a straight-line basis. The depreciation periods for property and equipment, which approximate the estimated economic useful lives of such assets, are as follows:

	Year
Land improvements	5
Building	25
Machinery and equipment	4- 10
Furniture and fixtures	5- 10
Vehicles	5- 10
Leasehold improvements	5- 10

The useful life and depreciation method are reviewed periodically to ensure that the method and period of depreciation are consistent with the expected pattern of economic benefits from items of property and equipment.

Intangible assets

Intangible assets which mainly comprise software rights are measured initially at cost. Intangible assets are recognized if it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise; and the cost of the asset can be measured reliably. After initial recognition, intangible assets are measured at cost less accumulated amortization and any accumulated impairment losses. Intangible assets excluding development costs, created within the business are not capitalized and expenditure is charged against profits in the year in which it is incurred. The useful lives of intangible assets are assessed to be either finite or indefinite.

Intangible assets with finite lives are amortized on a straight line basis over the best estimate of their useful lives. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at each financial year-end.

Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of income in the expense category consistent with the function of the intangible asset.

The Group does not have any intangible assets with indefinite useful lives.

The carrying values of intangible assets are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

BİM Birleşik Mağazalar Anonim Şirketi and its Subsidiary

Notes to consolidated financial statements for the nine-month period ended September 30, 2011 (continued) (Currency – Thousands of Turkish Lira (TL) unless otherwise indicated. All other currencies are expressed in full amounts unless otherwise indicated)

2. Basis of preparation of financial statements (continued)

Impairment of non-financial assets

The carrying values of assets are reviewed for impairment when events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Whenever the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognized in the statement of income. The recoverable amount of property and equipment is the greater of net selling price and value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life while the net selling price is the amount obtainable from the sale of an asset after cost of sales deducted.

Trade payables

Trade payables which generally have an average of 47 day term (December 31, 2010 – 48 days) are initially recorded at original invoice amount and carried at amortized cost. This amount is the fair value of consideration to be paid in the future for goods and services received, whether or not billed.

Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset shall be capitalized as part of the cost of that asset. Such borrowing costs are capitalized as part of the cost of the asset when it is probable that they will result in future economic benefits to the entity and the costs can be measured reliably. Other borrowing costs are recognized as an expense in the period in which they are incurred.

Financial instruments

Financial asset and financial liabilities are recognized on the Group's balance sheet when the Group becomes a party to the contractual provisions of the instrument.

When a financial instrument gives rise to a contractual obligation on the part of the Group to deliver cash or another financial asset or to exchange another financial instrument under conditions that are potentially unfavorable, it is classified as a financial liability. The instrument is an equity instrument if, and only if, both conditions (a) and (b) below are met:

- (a) The instrument includes no contractual obligation to deliver cash or another financial asset to another entity; or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the issuer,
- (b) If the instrument will or may be settled in the Group's own equity instruments, it is a non-derivative that includes no contractual obligation for the Group to deliver a variable number of its own equity instruments; or a derivative that will be settled only by the Group exchanging a fixed amount of cash or another financial asset for a fixed number of its own equity instruments.

Financial assets are classified as either financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments or available-for-sale financial assets. When financial assets are recognized initially, they are measured at fair value, plus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs. The Group determines the classification of its financial assets after initial recognition and, where allowed and appropriate reevaluates this designation at each financial year/period-end.

BİM Birleşik Mağazalar Anonim Şirketi and its Subsidiary

Notes to consolidated financial statements for the nine-month period ended September 30, 2011 (continued) (Currency – Thousands of Turkish Lira (TL) unless otherwise indicated. All other currencies are expressed in full amounts unless otherwise indicated)

2. Basis of preparation of financial statements (continued)

All regular way purchases and sales of financial assets are recognized on the trade date, which is the date that the Group commits to purchase/sell the asset. Regular way purchases or sales are purchases or sale of financial assets that require delivery of assets within the period generally established by regulation or convention in the market place.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are carried at amortised cost using the effective interest method. Gains and losses are recognized in income when the loans and receivables are derecognized or impaired, as well as through the amortization process.

Recognition and derecognition of financial assets and liabilities

The Group recognizes a financial asset or financial liability in its balance sheet when only when it becomes a party to the contractual provisions of the instrument. The Group derecognizes a financial asset or a portion of it only when the control on rights under the contract is discharged. The Group derecognizes a financial liability when the obligation under the liability is discharged or cancelled or expires.

All regular way financial asset purchase and sales are recognized at the date of the transaction, the date the Group committed to purchase or sell.

Impairment of financial assets

The Group assesses at each balance sheet date whether a financial asset is impaired.

Assets carried at amortised cost

If there is objective evidence that an impairment loss on assets carried at amortized cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not been incurred) discounted at the financial asset's original effective interest rate.

The carrying amount of the asset is reduced through use of an allowance account. The amount of the loss is recognized in the consolidated statement of income.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed, to the extent that the carrying value of the asset does not exceed its amortised cost at the reversal date.

Provision for impairment is provided when there is an objective evidence of uncollectibility of trade receivables. Reserve is provided for the overdue uncollectible receivables. Also portfolio reserve is provided for the not due receivables based on certain criteria. The carrying amount of the receivable is reduced through use of an allowance account.

BİM Birleşik Mağazalar Anonim Şirketi and its Subsidiary

Notes to consolidated financial statements for the nine-month period ended September 30, 2011 (continued) (Currency – Thousands of Turkish Lira (TL) unless otherwise indicated. All other currencies are expressed in full amounts unless otherwise indicated)

2. Basis of preparation of financial statements (continued)

Foreign currency transactions

Transactions in foreign currencies during the period have been translated at the exchange rates prevailing at the dates of such transactions. Exchange rate differences arising on reporting monetary items at rates different from those at which they were initially recorded or on the settlement of monetary items or are recognized in the comprehensive income statement in the period in which they arise.

Foreign currency conversion rates used by the Group for the related period ended are as follows:

	USD / TL (full)	EUR / TL (full)
September 30, 2011	1,8453	2,5157
December 31, 2010	1,5460	2,0491

Earnings per share

Earnings per share (EPS) are determined by dividing net income by the weighted average number of shares that have been outstanding during the period concerned. The weighted average number of shares outstanding during the year has been adjusted in respect of free shares issued without corresponding increase in resources.

Subsequent events

Post year/period-end events that provide additional information about the Group's position at the balance sheet date (adjusting events), are reflected in the financial statements. Post year/period-end events that are not adjusting events are disclosed in the notes when material.

Provisions, contingent assets and contingent liabilities

i) Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as interest expense.

ii) Contingent assets and liabilities

Contingent liabilities are not recognized in the financial statements but they are disclosed only, unless the possibility of an outflow of resources embodying economic benefits is probable. A contingent asset is not recognized in the financial statements but disclosed when an inflow of economic benefits is probable.

BİM Birleşik Mağazalar Anonim Şirketi and its Subsidiary

Notes to consolidated financial statements for the nine-month period ended September 30, 2011 (continued) (Currency – Thousands of Turkish Lira (TL) unless otherwise indicated. All other currencies are expressed in full amounts unless otherwise indicated)

2. Basis of preparation of financial statements (continued)

Leases

Operating leases

Leases where the lessor retains substantially all the risks and benefits of ownership of the asset are classified as operating leases. Operating lease payments are recognized as an expense in the statement of income on a straight-line basis over the lease term.

Related parties

A related party is a person or entity that is related to the entity that is preparing its financial statements (in this Standard referred to as the 'reporting entity').

- (a) A person or a close member of that person's family is related to a reporting entity if that person:
 - (i) has control or joint control over the reporting entity;
 - (ii) has significant influence over the reporting entity; or
 - (iii) is a member of the key management personnel of the reporting entity or of a parent of the reporting entity.
- (b) An entity is related to a reporting entity if any of the following conditions applies:
 - (i) The entity and the reporting entity are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - (iii) Both entities are joint ventures of the same third party.
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (v) The entity is a post-employment benefit plan for the benefit of employees of either the reporting entity or an entity related to the reporting entity. If the reporting entity is itself such a plan, the sponsoring employers are also related to the reporting entity.
 - (vi) The entity is controlled or jointly controlled by a person identified in (a).
 - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

Income taxes

Tax expense or income is the aggregate amount included in the determination of net profit or loss for the period in respect of current and deferred taxes.

Deferred income tax is provided, using the liability method, on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred income tax liabilities are recognized for all taxable temporary differences.

Deferred income tax assets are recognized for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, carry-forward of unused tax assets and unused tax losses can be utilized. The carrying amount of deferred income tax assets is reviewed at each balance sheet date and recorded to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

BİM Birleşik Mağazalar Anonim Şirketi and its Subsidiary

Notes to consolidated financial statements for the nine-month period ended September 30, 2011 (continued) (Currency – Thousands of Turkish Lira (TL) unless otherwise indicated. All other currencies are expressed in full amounts unless otherwise indicated)

2. Basis of preparation of financial statements (continued)

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates that have been enacted or substantively enacted at the balance sheet date.

Reserve for employee benefits

a) Defined benefit plans:

In accordance with existing social legislation in Turkey, the Company is required to make lump-sum termination indemnity payments to each employee who has completed over one year of service with the Company and whose employment is terminated due to retirement or for reasons other than resignation or misconduct.

As detailed in Note 24, the employee benefit liability is provided for in accordance with IAS 19 "Employee Benefits" and is based on an independent actuarial study.

In the consolidated financial statements, the Group has recognized a liability using the "Projected Unit Credit Method". Actuarial gains and losses, as long as the cumulative unrecognized portion exceed 10% of the present value of the defined benefit obligation, are recognized in the comprehensive statement of income over the average remaining working lives of employees. The employee termination benefits are discounted to the present value of the estimated future cash outflows using the discount rate estimated by qualified actuaries.

b) Defined contribution plans:

The Company pays contributions to the Social Security Institution of Turkey on a mandatory basis. The Company has no further payment obligations once the contributions have been paid. The contributions are recognized as an employee benefit expense when they are due.

3. Business combinations

As of September 30, 2011 and December 31, 2010, there is no business combination.

4. Business associations

None (December 31, 2010 - None).

5. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided the chief operating decision makers. The chief operating decision makers, who are responsible for allocation resources and assessing performance of the operating segments, have been identified as the senior management that makes strategic decisions.

The senior management of the Company makes strategic decisions as a whole over the operations of the Company as the Company operates in a single industry and operations outside Turkey do not present an important portion in overall operations. Based on those reasons, there is a single reportable segment in accordance with the provisions in IFRS 8 and segment reporting is not applicable.

BİM Birleşik Mağazalar Anonim Şirketi and its Subsidiary

Notes to consolidated financial statements for the nine-month period ended September 30, 2011 (continued) (Currency – Thousands of Turkish Lira (TL) unless otherwise indicated. All other currencies are expressed in full amounts unless otherwise indicated)

6. Cash and cash equivalents

	September 30, 2011	December 31, 2010
Cash on hand Banks	38.858	39.633
-profit share deposits -demand deposits	157.853 42.658	185.741 21.931
Cash in transit	12.116	10.266
	251.484	257.571
Minus: profit share of participation accruals	(2.169)	(552)
Sum of cash and cash equivalents based on the cash flow statement	249.315	257.019

There is no restricted cash as of September 30, 2011 and December 31, 2010. As of September 30, 2011 gross profit share of participation banks for TL amounts is 7,6% (December 31, 2010– gross 7,7%).

7. Financial investments

The Group does not have any security as of September 30, 2011 and December 31, 2010.

8. Financial liabilities

As of September 30, 2011, the Group has short term interest free bank borrowings from various banks amounting to TL 9.204 (December 31, 2010 – TL 7.662) for the payment of income taxes and social security premiums. These financial liabilities are closed as of October 4, 2011 (December 31, 2010 – January 4, 2011).

9. Other financial liabilities

None (December 31, 2010 - None).

10. Trade receivables and payables

a) Trade receivables, net

	September 30,	December 31,
	2011	2010
Credit card receivables	231.269	191.481
Trade receivables	613	500
Doubtful trade receivables	707	694
Other receivables	460	472
Less: provision for doubtful receivables	(707)	(694)
	232.342	192.453

As of September 30, 2011 the average term of trade receivables is 10 days (December 31, 2010 - 10 days).

BİM Birleşik Mağazalar Anonim Şirketi and its Subsidiary

Notes to consolidated financial statements for the nine-month period ended September 30, 2011 (continued) (Currency – Thousands of Turkish Lira (TL) unless otherwise indicated. All other currencies are expressed in full amounts unless otherwise indicated)

10. Trade receivables and payables (continued)

As of 30 September 2011 and 31 December 2010, the Group has no due receivables other than doubtful receivables provision.

Movement of provision for doubtful trade receivables As of September 30, 2011 and December 31, 2010 are as follows:

	September 30, 2011	September 30, 2010
January 1	694	518
Current period provision Collected	17 (4)	278 (89)
September 30	707	707

b) Trade payables, net

	September 30, 2011	December 31, 2010
Other trade payables	824.421	701.398
	824.421	701.398

As of September 30, 2011 letters of guarantee and cheque amounting to TL 17.932 and mortgages amounting to TL 12.710 received from its supplier firms (December 31, 2010 – TL 16.111 letters of guarantee and cheque, TL 12.710 mortgages).

11. Other receivables and payables

- a) Other receivables As of September 30, 2011 and December 31, 2010, the Group does not have any short-term and long-term receivables.
- **b)** Other payables- As of September 30, 2011 and December 31, 2010, the Group does not have any short-term and long-term payables.

12. Liabilities to and receivables from finance sector operations

None (December 31, 2010 - None).

BİM Birleşik Mağazalar Anonim Şirketi and its Subsidiary

Notes to consolidated financial statements for the nine-month period ended September 30, 2011 (continued) (Currency – Thousands of Turkish Lira (TL) unless otherwise indicated. All other currencies are expressed in full amounts unless otherwise indicated)

BİM Birleşik Mağazalar Anonim Şirketi and its Subsidiary

Notes to consolidated financial statements for the nine-month period ended September 30, 2011 (continued) (Currency – Thousands of Turkish Lira (TL) unless otherwise indicated. All other currencies are expressed in full amounts unless otherwise indicated)

18. Property, plant and equipment (continued)

The land and buildings were revalued and reflected to financial statements with fair value. The book values of such assets were adjusted to the revalued amounts and the resulting surplus net of deferred income tax was credited to revaluation surplus in the equity. The revaluation surplus is not available for distribution to shareholders.

Had the revalued assets been carried at cost less accumulated depreciation, the carrying amounts of land and buildings that would have been included in the financial statements as of September 30, 2011 and December 31, 2010 respectively are as follows:

	Land and buildings		
	September 30,	December 31,	
	2011	2010	
Cost	244.731	219.501	
Accumulated depreciation	(22.560)	(17.653)	

As of September 30, 2011 and December 31, 2010, the gross carrying amount of property, plant and equipment and intangibles, which are fully depreciated, but still in use, is as follows:

	September 30,	December 31,
	2011	2010
Furniture and fixtures Machinery and equipment Intangible assets and leasehold improvements	63.386 48.955 23.811	59.446 42.307 21.562
Vehicles	6.703	4.391
Land improvements	181	173
	143.036	127.879

Pledges and mortgages on assets

As of September 30, 2011 and December 31, 2010, there are no pledges or mortgages on property, plant and equipment of the Group.

BİM Birleşik Mağazalar Anonim Şirketi and its Subsidiary

Notes to consolidated financial statements for the nine-month period ended September 30, 2011 (continued) (Currency – Thousands of Turkish Lira (TL) unless otherwise indicated. All other currencies are expressed in full amounts unless otherwise indicated)

19. Intangible assets

The movements of intangible assets and related accumulated amortization for the nine month periods ended September 30, 2011 and September 30, 2010 are as follows:

	December 31, 2010	Additions	Disposals	Effect of change in foreign currencies	September 30 2011
Cost					
Rights	9.104	876	(81)	30	9.929

BİM Birleşik Mağazalar Anonim Şirketi and its Subsidiary

Notes to consolidated financial statements for the nine-month period ended September 30, 2011 (continued) (Currency – Thousands of Turkish Lira (TL) unless otherwise indicated. All other currencies are expressed in full amounts unless otherwise indicated)

22. Provisions, contingent assets and liabilities (continued)

Insurance coverage on assets

As of September 30, 2011 and December 31, 2010, insurance coverage on assets of the Group is TL 559.738 and TL 538.470 respectively.

23. Commitments

As of September 30, 2011 and December 31, 2010, the Group has operating lease commitments for each of the following years:

	September 30, 2011	December 31, 2010
Later than one year and not later than five years	-	41
Later than five years	18	22

24. Employee termination benefits

Reserve for employee termination benefits

In accordance with existing social legislation, the Company is required to make lump-sum payments to employees whose employment is terminated due to retirement or for reasons other than resignation or misconduct. In Turkey, such payments are calculated on the basis of 30 days' pay (limited to a maximum of historical TL 2.732 (full TL) and TL 2.517 (full TL) at September 30, 2011 and December 31, 2010, respectively) per year of employment at the rate of pay applicable at the date of retirement or termination. The cost of providing those benefits is accrued over the employees' service period. The Group accounts for the employee termination benefits in accordance with the provisions of IAS 19 including the application of actuarial methods and assumptions by professional actuaries. Actuarial gains and losses, as long as the cumulative unrecognized portion exceeds 10% of the present value of defined benefit obligation, are recognized in the statement of comprehensive income over the average remaining working lives of employees. Reserve for employee termination benefits are calculated as of September 30, 2011 and December 31, 2010.

The following tables summarize the components of net benefit expense recognized in the comprehensive statement of income and amounts recognized in the balance sheet:

	January 1 – September 30, 2011	January 1 – September 30, 2010
Current service cost	2.777	1.806
Financial expense of employee termination benefit	1.313	849
Actuarial losses	337	-
Total expense	4.427	2.655

Other	99.157	65,3	83.170	54,8
	151.800	100	151.800	100

The Company's share capital is fully paid and consists of 151.800.000 shares of TL 1 nominal value (December 31, 2010 - 151.800.000).

BİM Birleşik Mağazalar Anonim Şirketi and its Subsidiary

Notes to consolidated financial statements for the nine-month period ended September 30, 2011 (continued) (Currency – Thousands of Turkish Lira (TL) unless otherwise indicated. All other currencies are expressed in full amounts unless otherwise indicated)

27. Shareholders' equity (continued)

Revaluation fund

As of September 30, 2011, Group has revaluation surplus amounting TL 15.704 (December 31, 2010 – TL 15.704) related to revaluation of land and buildings. The revaluation surplus is not available for distribution to shareholders.

b) Restricted reserves allocated from profits / prior year profits

The legal reserves consist of first and second legal reserves, per the Turkish Commercial Code (TCC). The TCC stipulates that the first legal reserve is appropriated out of net statutory profits at the rate of 5% per annum, until the total reserve reaches 20% of the Company's historical paid-in share capital. The second legal reserve is appropriated at the rate of 10% per annum of all cash distributions in excess of 5% of the historical paid-in share capital. Under TCC, the legal reserves are not available for distribution unless they exceed 50% of the historical paid-in share capital but may be used to offset losses in the event that historical general reserve is exhausted.

The statutory accumulated profits and statutory current year profit are available for distribution, subject to the reserve requirements referred to above and Turkish Capital Market Board (CMB) requirements related to profit distribution.

Listed companies are subject to dividend requirements regulated by the Turkish Capital Market Board as follows:

In accordance with the Capital Market Board decision number 1/6 dated January 9, 2009, during the calculation of distributable profits by the companies obliged to prepare financial statements; the companies can determine the amount of distributable profits by taking into account the net profit on the financial statements that are prepared and announced to the public according to No:XI-29 "Communiqué on Financial Reporting Standards in Capital Markets" which includes profits from associates, joint ventures and subsidiaries that are transferred to the profit of the Company, regardless of whether these companies' general assembly approved any dividend distributions, as soon as these distributable profits can be funded by the reserves in the statutory accounts of the companies.

In accordance with the Capital Market Board decision in January 27, 2010, it is decided that there is no dividend distribution requirements for the listed companies whose shares are traded on the stock exchange.

Inflation adjustment to shareholders' equity and book value of extraordinary reserves can be used as an internal source in capital, dividend distribution in cash or net-off against prior years' loss. In case the inflation adjustment to shareholders' equity is used for dividend distribution in cash, the distribution is subject to corporate tax.

BİM Birleşik Mağazalar Anonim Şirketi and its Subsidiary

Notes to consolidated financial statements for the nine-month period ended September 30, 2011 (continued) (Currency – Thousands of Turkish Lira (TL) unless otherwise indicated. All other currencies are expressed in full amounts unless otherwise indicated)

27. Shareholders' equity (continued)

As of September 30, 2011 and December 31, 2010 legal reserves, prior year profits and net income for the period in statutory accounts of the parent are as follows:

	September 30, 2011	December 31, 2010
Legal reserves	81.449	51.599
Prior year profits	41.682	5.826
Net income for the period	227.761	247.865
	350.892	305.290

Net profit per the Company's statutory books is TL 227.761 and net profit per consolidated financial statements in accordance with CMB accounting standards is TL 219.977.

Dividend payment

As decided at the Ordinary General Assembly meeting April 27, 2011, the Group has distributed dividend from 2010 profit amounting to TL 182.160 on May 17, 2011. Gross dividend payment per share is full TL 1,2.

28. Sales and cost of sales

a) Net sales

The Group's net sales for the nine months period ended September 30, 2011 and September 30, 2010 are as follows:

	January 1 -	July 1 -	January 1 -	July 1 -
	September 30,	September 30,	September 30,	September 30,
	2011	2011	2010	2010

34. Asset held for resale and discontinued operations

None (December 31, 2010 - None).

35. Tax assets and liabilities

As of September 30, 2011 and December 31, 2010, provision for taxes of the Group is as follows:

	September 30, 2011	December 31, 2010
Current period tax provision Prepaid taxes	57.395 (38.984)	62.628 (46.912)
Corporate tax payable	18.411	15.716

In Turkey, as of September 30, 2011 corporate tax rate is 20% (December 31, 2010 - 20%). Corporate tax returns are required to be filed by the twenty-fifth day of the fourth month following the balance sheet date and taxes must be paid in one installment by the end of the fourth month. The tax legislation provides for a temporary tax of 20% to be calculated and paid based on earnings generated for each quarter. The amounts thus calculated and paid are offset against the final corporate tax liability for the year.

BİM Birleşik Mağazalar Anonim Şirketi and its Subsidiary

Notes to consolidated financial statements for the nine-month period ended September 30, 2011 (continued) (Currency – Thousands of Turkish Lira (TL) unless otherwise indicated. All other currencies are expressed in full amounts unless otherwise indicated)

35. Tax assets and liabilities (continued)

In Morocco, as of September 30, 2011 the corporate tax rate is %30 (December 31, 2010 - %30) where the consolidated subsidiary of the Company, BIM Stores SARL operates.

Corporate tax losses can be carried forward for a maximum period of 5 years following the year in which the losses were incurred. The tax authorities can inspect tax returns and the related accounting records for a retrospective maximum period of five years.

15% withholding applies to dividends distributed by resident corporations' resident real persons except for, those who are not liable to income and corporation tax, non-resident real persons, non-resident corporations. Dividend distribution by resident corporations to resident corporations is not subject to a withholding tax. Furthermore, in the event the profit is not distributed or included in capital, no withholding tax shall be applicable.

As of September 30, 2011 and 2010, temporary differences based for deferred tax and deferred tax asset/liability calculated by using applicable tax rates are as follows:

			Compre	hensive income
		Balance sheet	•	statement
			January 1-	January 1-
	September 30,	December 31,	September 30,	September 30,
	2011	2010	2011	2010

iii) For the nine months periods ended September 30, 2011 and September 30, 2010 the Company received service from the related party, Proline Bilişim Sistemleri ve Ticaret A.Ş. amounting TL 591 and TL 498, respectively.

BİM Birleşik Mağazalar Anonim Şirketi and its Subsidiary

Notes to consolidated financial statements for the nine-month period ended September 30, 2011 (continued) (Currency – Thousands of Turkish Lira (TL) unless otherwise indicated. All other currencies are expressed in full amounts unless otherwise indicated)

38. Nature and level of risks arising from financial instruments

The Group is exposed to a variety of financial risks, including the effects of changes in debt and equity market prices, foreign currency exchange rates and profit share rates. These risks are market risk (including foreign currency risk and profit share rate risk), credit risk and liquidity risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance of the Group.

The Group's principal financial instruments comprise cash and short-term bank loans. The main purpose of using these financial instruments is to raise finance for the Group's operations. The Group has other financial instruments such as trade receivables and payables which arise directly from its operations. The Group manages its capital through cash provided by its operations and review of the maturities of the trade payables.

Price risk

Price risk is a combination of foreign currency, profit share and market risk. The Group naturally manages its price risk by matching the same foreign currency denominated receivable and payables and assets and liabilities bearing profit share. The Group closely monitors its market risk by analyzing the market conditions and using appropriate valuation methods.

Profit share rate risk

The Group does not have material profit share rate sensitive asset. The Group's income and cash flows from operations are independent from profit share rate risk.

The Group's profit share rate risk mainly comprises of outstanding short-term borrowings in the prior period. The Group's forthcoming loans in order to continue its operating activities are effected from forthcoming profit share ratios.

Profit share rate position table

According to IFRS 7 "Financial Assets", the profit share rate position of the Group is as follows:

Profit share position table		Current period	Prior period
Financial assets	Fixed-profit share bearing financial instruments Financial assets at fair value through profit/loss Available for sale financial assets	157.853 -	185.741 -
Financial liabilities		-	-
Financial assets Financial liabilities	Variable profit share bearing financial instruments	- -	- -

Notes to consolidated financial statements for the nine-month period ended September 30, 2011 (continued) (Currency – Thousands of Turkish Lira (TL) unless otherwise indicated. All other currencies are expressed in full amounts unless otherwise indicated)

38. Nature and level of risks arising from financial instruments (continued)

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. Since the Group is engaged in the retail sector and transactions are mainly on a cash basis or has 1 month maturity credit card collections, the exposure to credit and price risk is minimal.

Credit risk table (Current period)

	Credit card	receivable	Bank deposits		
	Related	Other	Related	Other	
	party	party	party	party

Liquidity risk

Prudent liquidity risk management includes maintaining sufficient cash and marketable securities, the availability of funding from an adequate amount of committed credit facilities and the ability to close out market positions.

BİM Birleşik Mağazalar Anonim Şirketi and its Subsidiary

Notes to consolidated financial statements for the nine-month period ended September 30, 2011 (continued) (Currency – Thousands of Turkish Lira (TL) unless otherwise indicated. All other currencies are expressed in full amounts unless otherwise indicated)

38. Nature and level of risks arising from financial instruments (continued)

The ability to fund existing and prospective debt requirements is managed by maintaining the availability of adequate committed funding lines from high quality lenders.

As of September 30, 2011 and December 31, 2010, maturities of undiscounted trade payables and financial liabilities are as follows (accrual amounts are not included):

September 30, 2011

		Total	Less	Between		More
	Book	cash	than 3	3-12	Between	than 5
Contractual maturities	value	outflow	months	months	1-5 year	years
Non derivative financial liabilities						
Bank borrowings	9.204	9.204	9.204	-	_	_
Trade payables	824.421	829.511	829.511	-	-	-
Due to related parties	111.380	112.068	112.068	-	-	-
December 31, 2010						
		Total	Less	Between		More
	Book	cash	than 3	3-12	Between	than 5
Contractual maturities	value	outflow	months	months	1-5 year	years
Non derivative financial liabilities						
Bank borrowings	7.662	7.662	7.662	-	-	-
Trade payables	701.398	706.032	706.032	-	-	-
Due to related parties	97.365	98.015	98.015	-	-	-

39. Financial instruments (fair value disclosures and disclosures in the frame of hedge accounting)

Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation, and is best evidenced by a quoted market price, if one exists.

The estimated fair values of financial instruments have been determined by the Group using available market information and appropriate valuation methodologies. However, judgment is necessarily required to interpret market data to estimate the fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the Group could realize in a current market exchange.

The Group considers that carrying amounts reflect fair values of the financial instruments.

BİM Birleşik Mağazalar Anonim Şirketi and its Subsidiary

Notes to consolidated financial statements for the nine-month period ended September 30, 2011 (continued) (Currency – Thousands of Turkish Lira (TL) unless otherwise indicated. All other currencies are expressed in full amounts unless otherwise indicated)

39. Financial instruments (fair value disclosures and disclosures in the frame of hedge accounting) (continued)

Financial assets

The fair values of certain financial assets carried at cost including cash and cash equivalents profit share accruals and other short term financial assets are considered to approximate their respective carrying values due to their short-term nature. The carrying value of trade receivables along with the related allowance for unearned income and uncollectibility are estimated to be their fair values.

Financial liabilities

Financial liabilities of which fair values approximate their carrying values:

Fair values of trade payables and other monetary liabilities are considered to approximate their respective carrying values due to their short-term nature. The bank borrowings are stated at their amortized costs and transaction costs are included in the initial measurement of loans and bank borrowings. The fair value of bank borrowings with variable rates are considered to approximate their respective carrying values since the profit share rate applied to bank loans and borrowings are updated periodically by the lender to reflect active market price quotations. The carrying value of trade payables along with the related allowance for unrealized cost is estimated to be their fair values.

40. Subsequent events

None.

41. Other matters that significantly affect financial statements or are necessary for openness, interpretability and clearness of the financial statements

There is no other matters having significant impact on or requiring explanation in order to provide the clarity, interpretability and perceptibility of the financial statements as of September 30, 2011 and December 31, 2010.
